

Managing invoices

You may quickly review your invoices regarding the monthly usage of Cleura Cloud resources, selectively pay outstanding invoices, save any number in PDF format, and change the email address for receiving such invoices.

First, fire up your favorite web browser, navigate to the **Cleura Cloud Management Panel** start page, and log into your Cleura Cloud account.

Listing invoices

Make sure the vertical pane on the left-hand side of the dashboard is expanded. Please look at the options and click on *Invoices* (right below *Users*). Then, in the main pane of the dashboard, you will see a list of paid and outstanding invoices.

Any paid invoice has a green circle-with-tick icon at the left of its row. Also, look at the *Outstanding Amount* column, where there is a value of 0.00 for each paid invoice.

Displaying invoice details

Notice the three-dot orange icon at the right of any invoice row. By clicking on it, you get a pop-up with specific options regarding the corresponding invoice. For example, you can view the invoice's PDF or download it onto your computer.

Type	Invoice No	Outstanding Amount	Invoice Date	Due Date
Invoice	123456789	1,234.56	2023-10-01	2023-10-15

Paid	678901234	0.00	2023-10-07	2023-10-21

Paying outstanding invoices

There is also the *Pay this invoice* option. Choose it for an outstanding invoice and you will get a pop-up with a detailed rundown of the dues, together with supported payment methods.

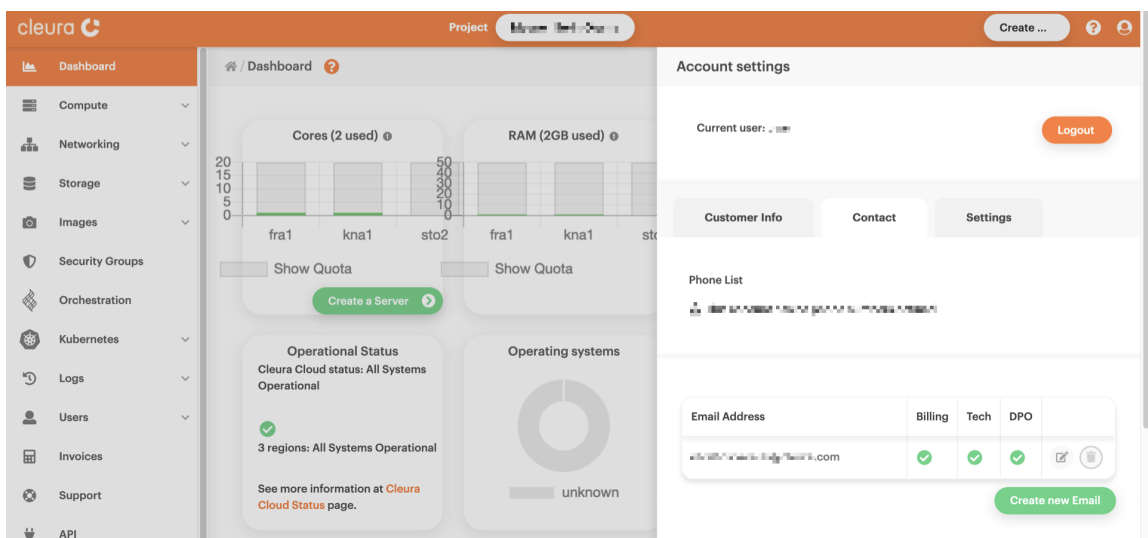

Changing your invoice email address

Finally, you may change the email address for receiving invoices. At the right-hand side of the dashboard, click the user icon at the top of the page. A pane titled *Account settings* will slide over.

There are three tabs in that pane:

- *Customer Info*,
- *Contact*,
- *Settings*.

Click the middle one, *Contact*. If there is only one email address, it will have all available roles activated — including the *Billing* role.

Add a new email address to receive future invoices in a different email. Then, make sure the *Billing* role is deactivated for the old email address and activated for the new one.

The screenshot displays the Cleura dashboard interface. On the left is a sidebar menu with categories like Compute, Networking, Storage, Images, Security Groups, Orchestration, Kubernetes, Logs, Users, Invoices, Support, and API. The main content area is divided into two panels. The left panel shows resource usage for 'Cores (2 used)' and 'RAM (2GB used)' across different storage types (fra1, kna1, sto2), along with an 'Operational Status' section indicating 'All Systems Operational' and a 'Create a Server' button. The right panel is titled 'Account settings' and includes a 'Logout' button, tabs for 'Customer Info', 'Contact', and 'Settings', a 'Phone List', and a table for managing email addresses.
