S3 API

S3 is an object-access API based on HTTP and HTTPS.

In Cleura Cloud, you interact with the S3 API using either the $\,$ s3cmd $\,$ command-line interface (CLI), the MinIO client CLI ($\,$ mc), or the standard $\,$ aws CLI.

Either way, in addition to installing and configuring the Python openstackclient module, you need to install one of the aforementioned utilities.

Debian/Ubuntu		Mac OS X with Homebrey	w Python Package
apt install s3cmd aws			
brew install minio- mc s3cmd	bility		
pip install s3cmd		ole in select Cleura Cloud re etails on S3 API availability.	gions. Refer to the feature
